

Are you feeling stretched by fast paced appointments, feeling unsupported, and looking for a more thoughtful way to practice?

This just might be the team that brings you back to **why** you became a veterinarian in the first place, with the support and structure to make that sustainable.

Community

Located in the heart of Marda Loop / Upper Mount Royal, you're surrounded by many of Calgary's best amenities. Great restaurants, coffee shops, boutique fitness studios, and everything you need just steps away. You're minutes from downtown and still a short drive to the mountains when you need a reset.

Our Clinic Team

Royal Loop is a young clinic, just over 18 months old, and continues to grow quickly. We are now looking to add a fourth veterinarian to support that growth and maintain the way we practice.

You'll be supported by an experienced owner group and local leadership team: Dr. Jodi Harbour, Dr. Heather Pineo, Dr. Ashley Hawley along with Clinic Manager Ebony Lowther. We may be biased, but we think our team at Royal Loop is something special. We love healthy competitive challenges along with lighthearted pranks. We fully utilize our RVTs so you can stay focused on high quality medicine, building your skills and caring for our clients and patients.

The Role

We are looking for the next veterinarian to join our current three veterinarian team. Someone excited to be part of a team first environment who values practicing high quality, practical medicine.

In practice, that means:

- Longer appointments and a calm, sustainable pace
- Proactive wellness care
- Fear Free handling, including pre visit pharmaceuticals
- Strong technical support and a team first culture

You'll Fit Here If You:

- Enjoy working in a supportive, team first environment
- Value long term client relationships
- Communicate clearly and bring a solutions mindset
- Are eligible to practice in Alberta

What We Offer:

- Competitive compensation
- A positive, well run growing clinic
- Strong technical support and leadership
- The opportunity to join a clinic still in its development with the ability to help shape its future

If you're looking for a place to slow down, practice great medicine, and enjoy your work, we'd love to hear from you!

Send your resume and a brief cover note to Ebony at ebony.lowther@royalloopvet.com
