

FRACTURE REPAIRS FOR THE GENERAL PRACTITIONER

BASIC TO INTERMEDIATE COURSE FOR DVMS

Course Description:

This is a 2-day hands-on course to learn reliable plating techniques and valuable, applicable tips for repairing both simple and more challenging fractures in dogs and cats. The goal of this course is to provide veterinarians the practical surgical techniques for everyday life in small animal practices and perhaps beyond. This course begins with a half day of lectures followed by an afternoon and a second full day of hands-on laboratory time with applicable specimens. CE certificate, beverages, snacks, and lunch are provided.

Instructor:

John T. Payne

DVM, MS. DACVS
